- NOTE ON FOLLOWING STATE ACCUMULATIONS:
Lots 223 through 253.
Old time accumulations on tightly mounted pages are sorted by face different stamp color mounted as the most stamps possible. Totals range from a single copy to an entire page of the same type. There are mostly precancels with a few dateds, prepers and perfins. A post cancelled total includes postcancels socked on nose, registry, boxes and rollers. Condition is average, probably as saved from mail. A few are damaged. Extremely small state counts were combined. Many Washington/Franklins were seen. Most are 1922-26.

Auctioneers' Note

We apologize that the ordering of these lots is somewhat scattered. Be sure to check every page for what you are seeking! The answer to your quest may be lurking where you do not expect it to be

Other obligations have caused us to be more than unusually pushed to get this out before we leave for the Florida meet so that you could have enough time to study the list and get your bids in.

Due to the overwhelming size of this auction, we need to take longer than usual to get the lots into the mail to the winning bidders! Be patient with us!

Happy stamping,
John and Katie
